-----------	----------------	-----------------	---

NOTES:

There are Two categories of Managed Medicare (MA) and three types active in our market:

1--Private Fee For Service (PFFS)

No contract needed. Member can access any Provider as long as Provider is willing to accept the Plans Terms and Conditions at time of service.

2--CONTRACT: Managed Medicare HMO

Operates like a traditional HMO. Contract required with Providers. Member must access contracted (in network) providers to receive highest level of benefit. Members typically do NOT have any benefits if they access out of network providers.

3--CONTRACT: Managed Medicare PPO

Operates like a traditional PPO. Contract required with Providers. Member must access contracted (in network) providers to receive highest level of benefit. Members typically DO have some benefit if they access out of network providers.

**** CVMC AND EMPLOYED PHYSICIANS ACCEPT ALL PFFS PLANS**

****IF PATIENT HAS A CONTRACTED PLAN**

NOT ON THIS LIST, THEN CVMC IS NOT CONTRACTED
